

2.2-2 Campus Activities

The Associate Director of Student Development may hire a student for the position of Student Activity Coordinator. This person will be tasked with planning various campus activities throughout the semester. These activities are meant to encourage campus unity and to provide social activities for our students at a minimal cost. The Coordinator will keep an events calendar that is visible to all students on the bulletin board outside of Student Services. They will oversee planning, securing approval and funds, and advertising the event through social media. They will work closely with the Associate Director and with the Student Council. Suggestions are always welcome.
